Celebrant Ceremonies

Congratulations!

How wonderful for you both to have found someone so special!

This is a very exciting time for you and I want to ensure your day is memorable for all the best reasons.

Having carefully considered and chosen so many details for your special day, why are you happy to settle for a generic ceremony?

Why make the same boring vows when everything else in your day has been handpicked...created especially by you?

This is your
day:
stay true to
YOU.

Moments To...

Do it **YOUR** way!

What is a Celebrant?

I am!

Hello, my name is Sarah.
And I want to hear all about **you**.
How did you meet?
Was it love at first sight?
What plans do you have?

"I can't wait to hear your love story. Tell me everything!"

Why do you need a Celebrant?

Combining your love story with your dreams and hopes for the future, I design and deliver a wedding ceremony that is completely unique to you.

"My role is to showcase how special you both are on the most wonderful day of your lives."

You get more flexibility with: your venue; when you complete the legal admin; how you say your vows; and who participates in your ceremony - even pets can join in!

The Do It Your Way Ceremony £TBC

I want you to have the Celebrant Wedding Ceremony that works for you. This plan gives you the most options. You can mix and match what elements and mementoes you want to have, and I can offer advice on how to organise the flow of your ceremony.

There's no price because we add up the elemental costs and take it from there. It will be great fun planning, though.

You can find a price breakdown at www.momentsto.co.uk in the blog section.
